SUB.  SAK[®]

LOKSAK, Inc. of Naples, Florida is the inventor and manufacturer of the **aLOKSAK** and **OPSAK** transport and storage bags. Our bag closure is both re-sealable and hermetic and offers 100% protection from water, dust, humidity, sand, and snow.

We exercise control over every aspect of product development, marketing and distribution, just as we have since our inception in 1998. LOKSAK is an efficient and responsive company with unsurpassed product quality as well as unwavering commitment to customer service.

As an avid SCUBA diver, the founder of LOKSAK, Inc. brainstormed for years to make a 100% waterproof bag when she realized you simply couldn't buy one at any store. The **aLOKSAK** bag was the outcome of countless months of dedication, research and testing. Originally designed to keep contents safe from water, it quickly became apparent that our hermetically sealed bags were capable of so much more, and with that, our **aLOKSAK** bags soon earned the moniker of "the element-proof storage bag"-- adding dust, humidity and air to its list of neutralized factors.

OPSAK Odor Barrier bags feature the same hermetic seal as our **aLOKSAK** bags with the addition of a barrier film to eliminate odors and vapors from escaping. These odor-proof bags are perfect for keeping refrigerators free of strong scents, keeping wildlife away from food and campsites and even packing out body waste from our pristine national parks.

SPLASHSAK our brand of nylon carrying cases, offers a convenient option to comfortably carry our **aLOKSAK** bags in a specially designed housing. Our **SPLASHSAK** carrying cases come complete with two (2) **aLOKSAK** waterproof bags.

In 2013 LOKSAK, Inc. added the **SHIELDSAK**, a pocket friendly, fabric Faraday cage that allows consumers to carry mobile devices and items with ID chips undetected. Once the item is placed in the **SHIELDSAK** your personal information is guarded against being hacked, tracked or intercepted by skimming devices.

LOKSAK Today:

Along came mobile devices! To our excitement, **aLOKSAK** bags allowed full use of touch screens. LOKSAK quickly offered new size specific bags for electronics. The audio portion of the phone is not compromised when protected in our **aLOKSAK** bag, thus allowing the user to make and receive phone calls

New Brand! SUB → SAK. Our waist pouches, featuring 2 **aLOKSAK** bags, are now affordable for Theme Parks, Water Parks, Resorts, Souvenir and Gift shops, and they are super exciting when a custom logo is added. Who doesn't love a logoed item to keep their memories alive!

LOKSAK, Inc. sells products into markets as diverse as the applications of our products. Along with our huge domestic market, we sell internationally to outdoor and civilian markets, and all branches of the U.S. military, other government agencies and law enforcement worldwide.

Original Equipment Manufacturer (OEM) companies integrate our **aLOKSAK** and **OPSAK** barrier bags into their own product lines.

In 2012, LOKSAK, Inc. began offering customers the option to print CUSTOM LOGOS or text on our brands for special events, promotional giveaways, and as stated, OEM use.

As technology advances, LOKSAK, Inc. will continue to set industry standards for light-weight, high-performance, and affordable storage solutions.

aLOKSAK®

100% Protection From:

aLOKSAK is the only re-sealable, flexible storage bag offering protection from all of the elements. The patented, light-weight storage system prevents air, humidity, water, dust and sand from harming your valuables and electronics.

An aLOKSAK is indispensable from keeping your phone dry, to ensuring that your treasures are safe from the passage of time. They are also certified waterproof down to 200 feet and can be reused many times.

Technical data is available on all of our brands.

SHIELDSAK®

SHIELDSAK is our patented, light-weight fabric Faraday cage capable of blocking signals that can steal your critical information. This bag was designed for all types of mobile devices including, but not limited to: Smartphones and tablets.

When an item is placed in the SHIELDSAK and sealed correctly, the item and its file contents become secure. Signals are blocked from entering or leaking from the bag. Phones will not ring. Items with ID chips, like passports and credit cards, cannot be scanned. Vital information is secure and tracking is impossible. Some electronics contain a tracking device that cannot be turned off, however, with the SHIELDSAK that feature is irrelevant.

Also note that SHIELDSAK will go through TSA security scans with absolutely no problems.

SKU #	Inner Dimensions (in)	Inner Dimensions (cm)
SHSAK-SL-P	4.25" x 7"	10.8 x 17.78
SHSAK-SL-T	9.35" x 11.45"	23.75 x 29
SHSAK-SL-L	12" x 18"	30.48 x 45.72

Technical Specs:

- Surface resistivity: 0.5 ohms/□ Max - Average .2 ohms/□
- Shielding Effectiveness: Tested from 30 MHz to 5 GHz - Average Attenuation 85+ (dB)
- Tested from 30 MHz to 10 GHz - Average Attenuation 72 (dB)
- Abrasion resistance: 1,000,000 cycle
- Temperature range: -22 F to 194 F (-30 C to 90 C)

100% Protection From:

OPSAK bags are an enhanced aLOKSAK, as they are not just waterproof but also odor and vapor proof. So if you're going camping, you will sleep peacefully knowing your food is stored in "bear-proof" state-of-the-art storage bags that won't leak odors like traditional storage containers.

Need to take it a step further? They can also be used to safely and discreetly store body waste.

OPSAK bags are re-sealable and proven to be odor proof. Whether you are camping, traveling with a baby or adventure racing, these light-weight storage bags will make for a safer, more pleasurable journey.
